---

Dear Sir,

I heard about the Wavestone company via the FrenchTech platform and write you today to take part of your teams as a European Services Analyst/Consultant in Luxembourg.

I'm interested in Economy / Finance as an amateur since a few years as well as the entrepreneurship and would like to build up a professional background in close touch with experienced leaders. During my year in the United States, I attempted to conferences and meetings with startup leaders and entrepreneurs who motivated me get involved in FinTech environment.

As Wavestone is a leader in cybersecurity and Financial softwares, it represents a great carrier opportunity. My experience as Research Assistant at the University of South Florida taught me an introduction to teams management as I was in charge of a team of 7 Research Assistants splitted in three groups, under the supervision of my Principal Investigator. Furthermore, the versatility and the capacity to adapt to a situation are two qualities that I appreciate and would like to improve.

I am motivated, curious, always in the need to learn and get out of my comfort zone. The scientific method is my way to make progress and I love working in small teams with boiling minds, ready to catch new ideas.

Looking forward to reading from you.

Best regards,

Antoine Herrmann
